Sometimes you can have it all.

 **SPIEGELAU**  
THE CLASS OF GLASS

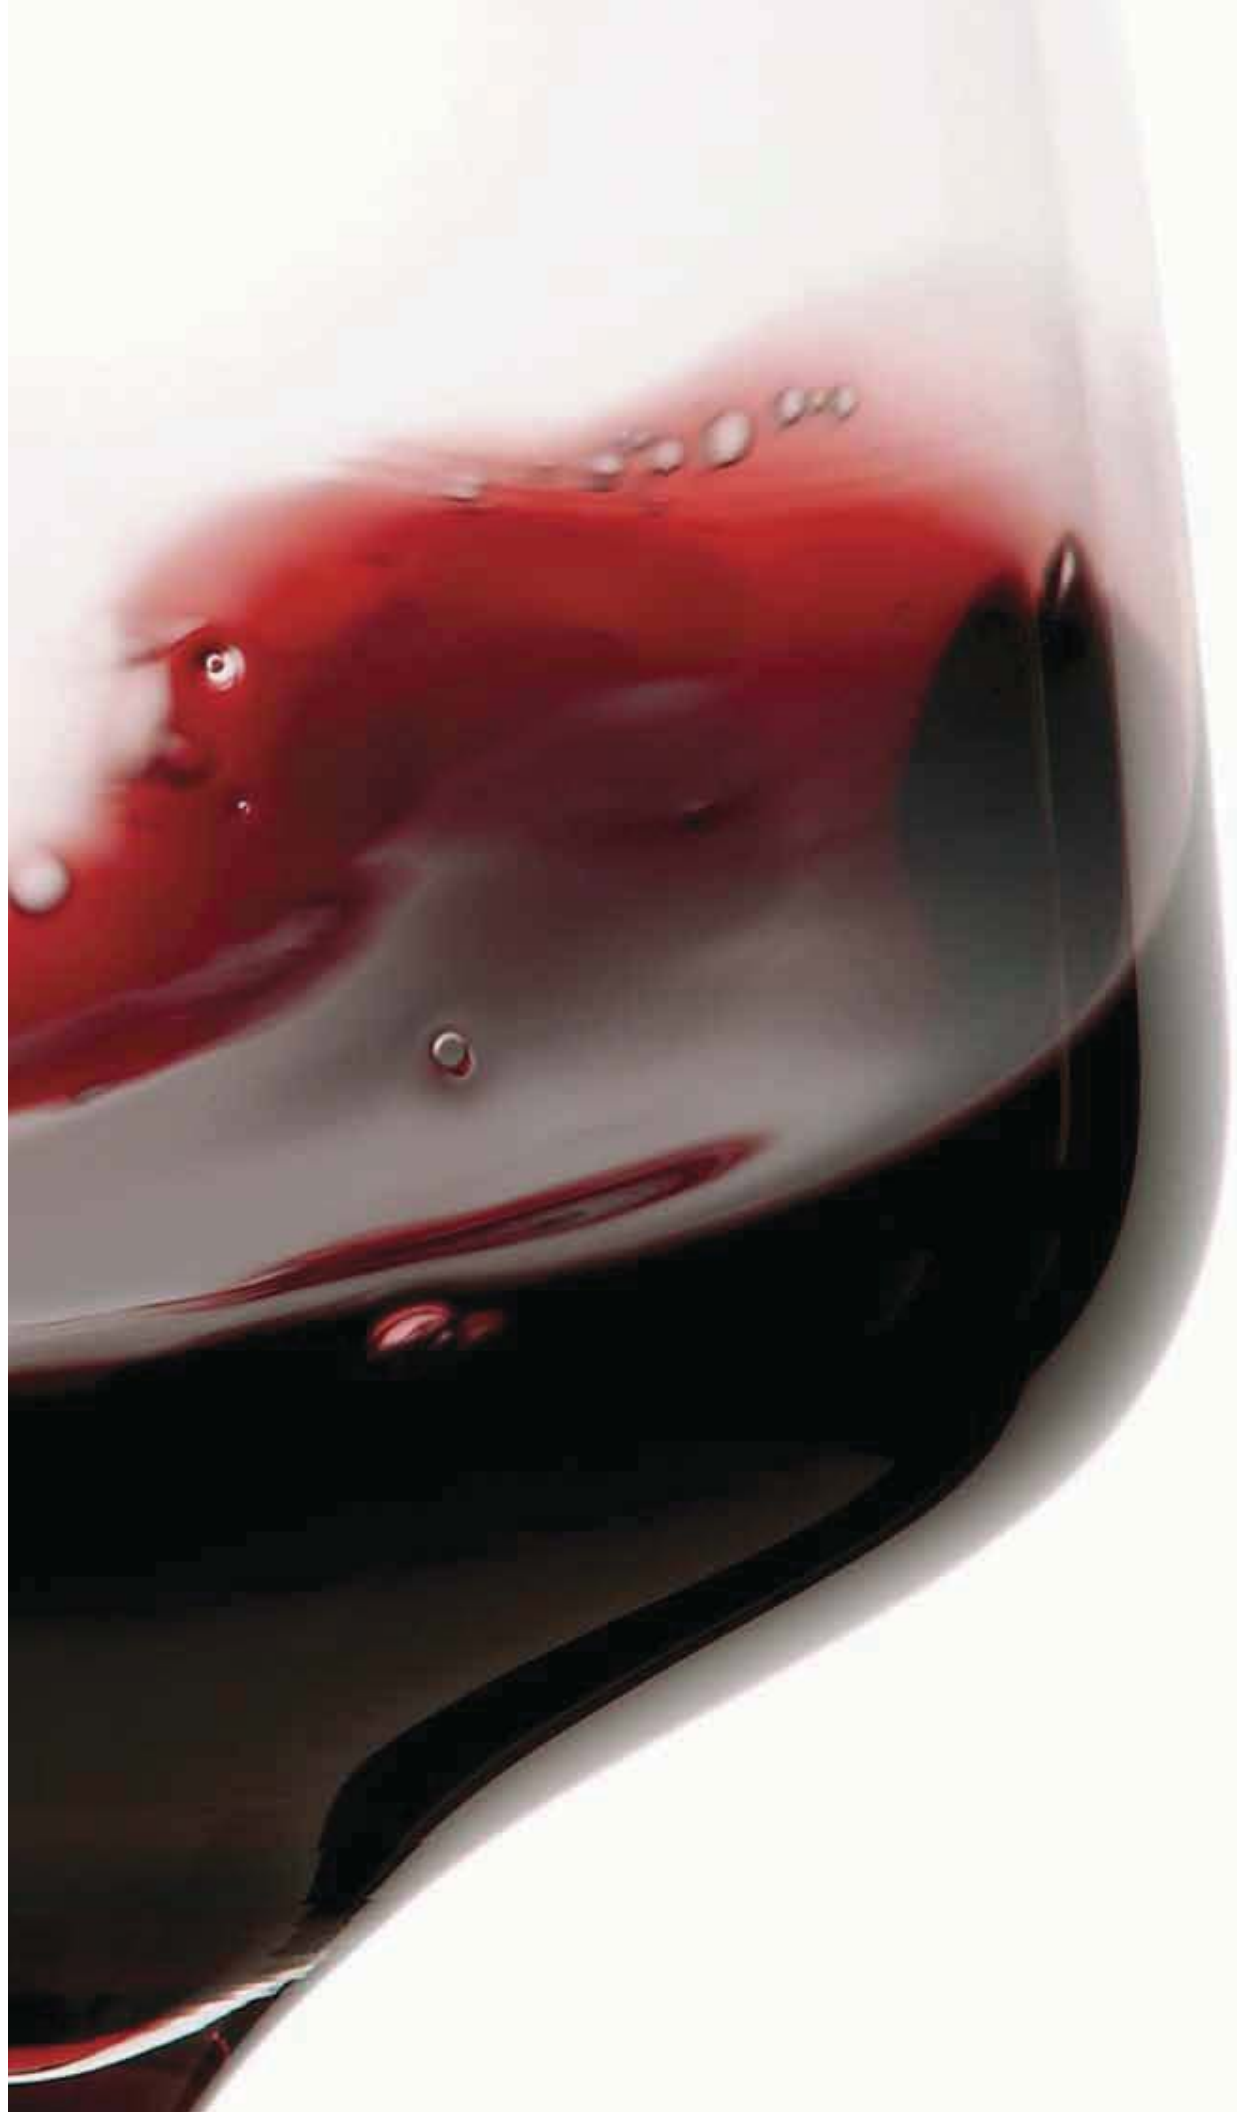

## SPIEGELAU - THE CLASS OF GLASS

The first documented reference to SPIEGELAU glassworks dates back to just one generation after the discovery of America. Since its first mention in 1521, the small mouthblown producer in the village of SPIEGELAU nestled in the Bavarian Forest has gone on to become one of the major crystal production companies, exporting all over the world. Today SPIEGELAU has secured its place as a leading purveyor of wine glasses for industry professionals. Our international presence in the best restaurants, hotels, wine shops, and other venues is a testament to our success.

# Stemware/ Tumbler

*The form of the glass is dictated by a wine`s need to express itself, and by the way that tastes are perceived in each and every wine. The challenge issued to the glass has far less to do with the grape variety, it depends much more on other elements, such as maturity, acidity, tannin, viscosity and the bouquet of the wine. The glasses are manufactured by the specialists in SPIEGELAU, one of the most important wine glass manufacturers in Europe. Discover the difference.*
